The global economy is the root cause of our most pressing crises – a dying planet, inequality, an epidemic of fear and depression...

How can we end corporate rule and bring power back to our communities?

With talks and workshops on local food, finance, trade treaties, equality, diversity, cultural survival, indigenous rights, politics, governance, international collaboration, alternatives to GDP, law, technology, energy, gift economies, education, spirituality, grassroots activism, systemic change and much more.

More than 60 partner organizations including
